Exceptional teaching techniques for exceptional learners

- ✓ **Age-appropriate materials**
20-23 units of 12 words each including single and multisyllable words
- ✓ **Sequentially developmental order**
Follows the sequence of Glass Analysis, develops phonemic awareness, sound-symbol correspondence, and sound blending skills
- ✓ **Controlled content**
Focus on one target cluster per lesson
- ✓ **Multiple multi-sensory experiences**
Visual, auditory, tactile, & kinesthetic pathways to read, trace, dictate, & listen
- ✓ **Easy-to-process layout**
Large print, careful spacing, and simple icons for students with dysgraphia and visual processing issues

This program enables children to

- ✓ **Gain independence**
Simple icons accompany easy-to-follow directions, so students can work independently without asking, "What do I do now?"
- ✓ **Learn & practice basic & intermediate strategies**
Glass Analysis decoding strategies of chunking words
- ✓ **Recognize and retain phonetic clusters**
Reinforcement and built-in review sections throughout the book & special exercises to promote generalization to new contexts
